

WEBINAR

INNOVATION PROCUREMENT AND INTEROPERABILITY

18 December 2025 – 10:00- 12:00 CET

A webinar for public procurers, policy makers, legal advisors and suppliers

This webinar focuses on the importance of interoperability across Europe in the context of innovation procurement. The relevance of the Interoperable Europe Act and the "network of networks" of sovereign, interconnected public administrations across the EU will be explained, as well as the tools for interoperability within public administrations on a Union-wide scale and the removal of the unnecessary legal, organisational, semantical and technical obstacles. Different case examples will showcase best practices in PCP and PPI projects, the experience of smart cities and digital twins, and public-private cooperation to strengthen innovation procurement and interoperability.

TIME (CET)	TOPIC	SPEAKER/PARTICIPANTS
