State-of-play of the EU-Blue Parks Community & Mission Implementation Platform services

Clément DUPONT

SML / Mission Ocean Implementation Support Platform (MIP Ocean)

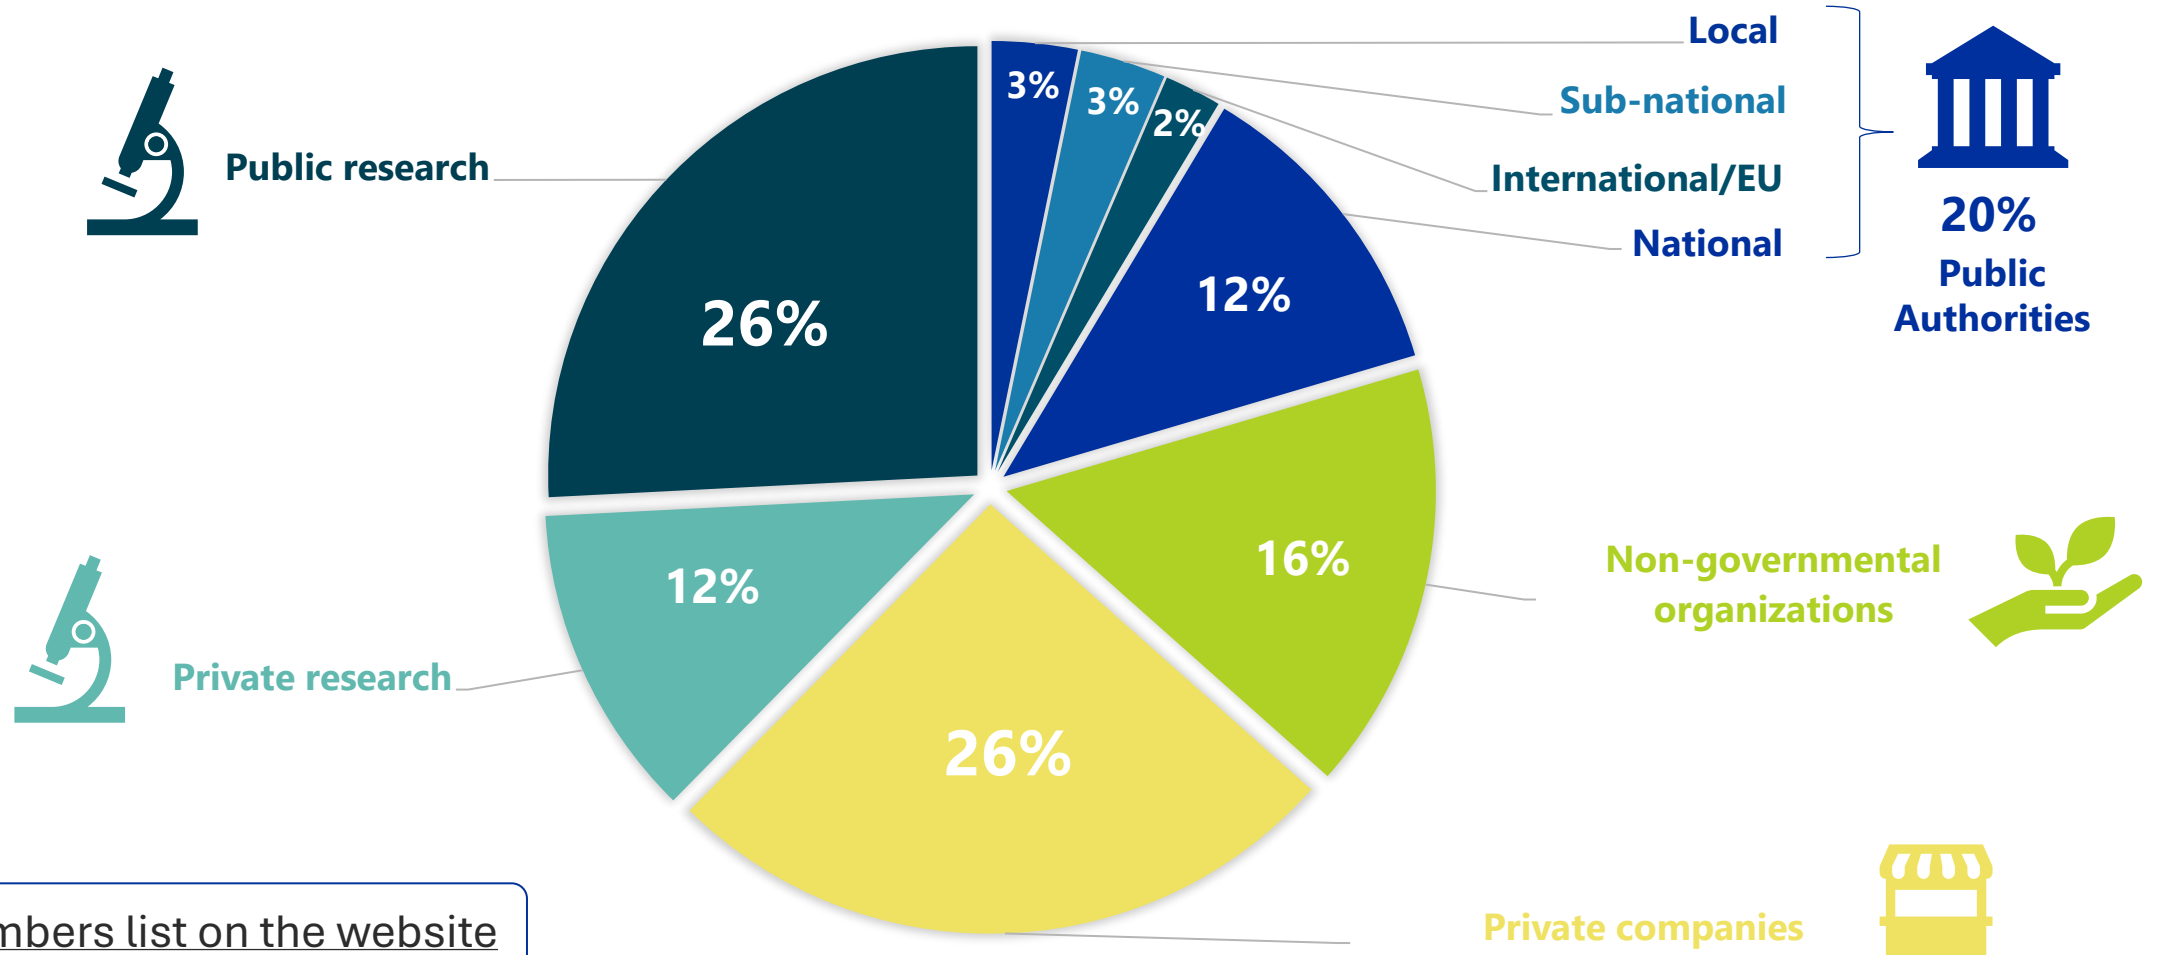

Snapshot of the EU-Blue Parks Community

- After a year of existence, the community has brought together **close to a hundred members**, from 86 different institutions.
- Many more have followed our workshops (+200)
- +1500 are registered to the Mission Ocean newsletter

Composition of the community

See Members list on the website

Diversified expertise

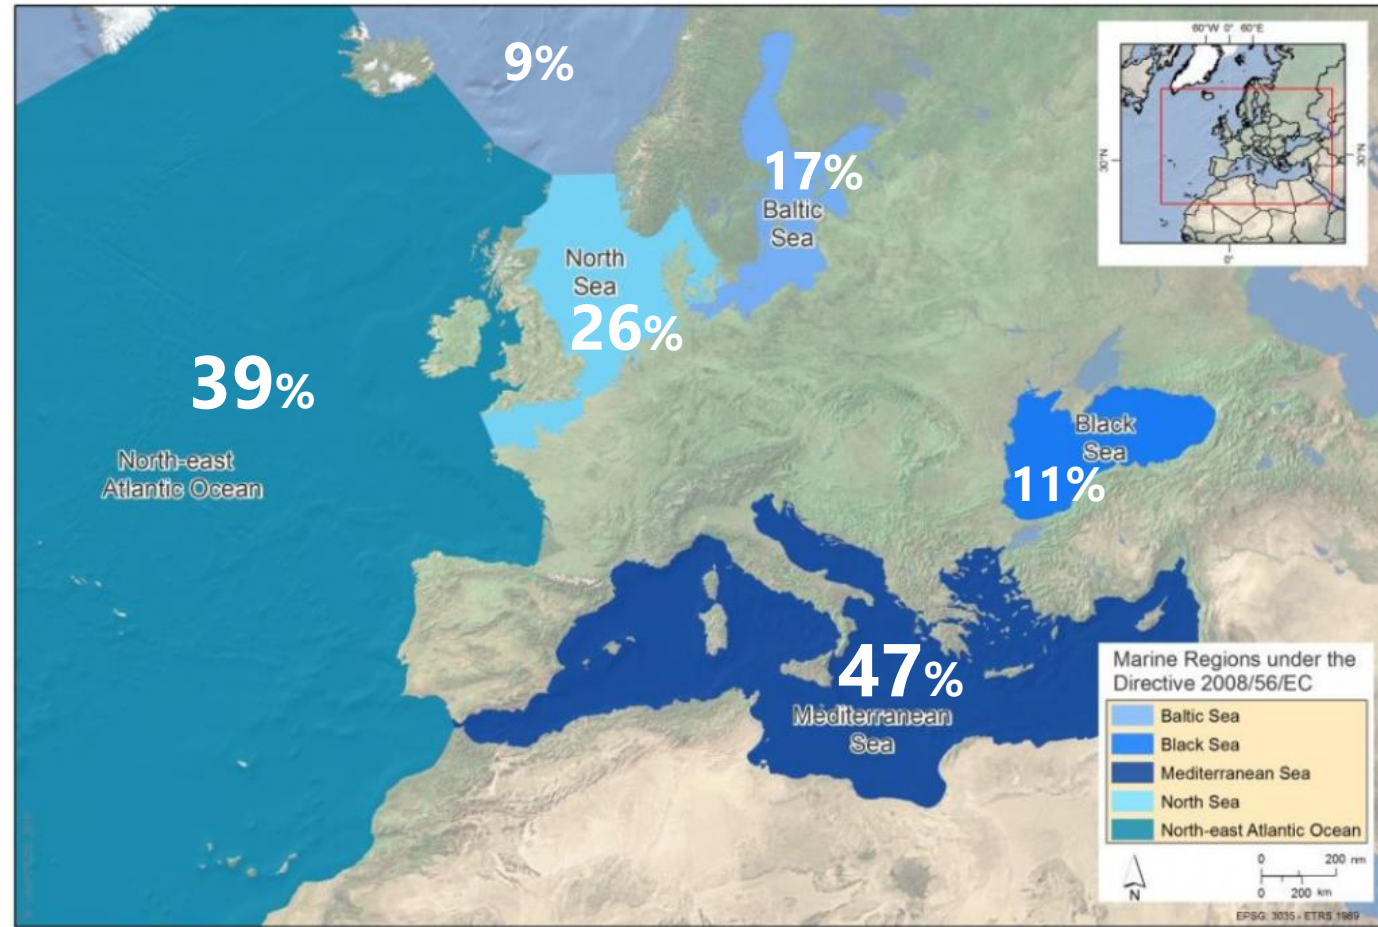

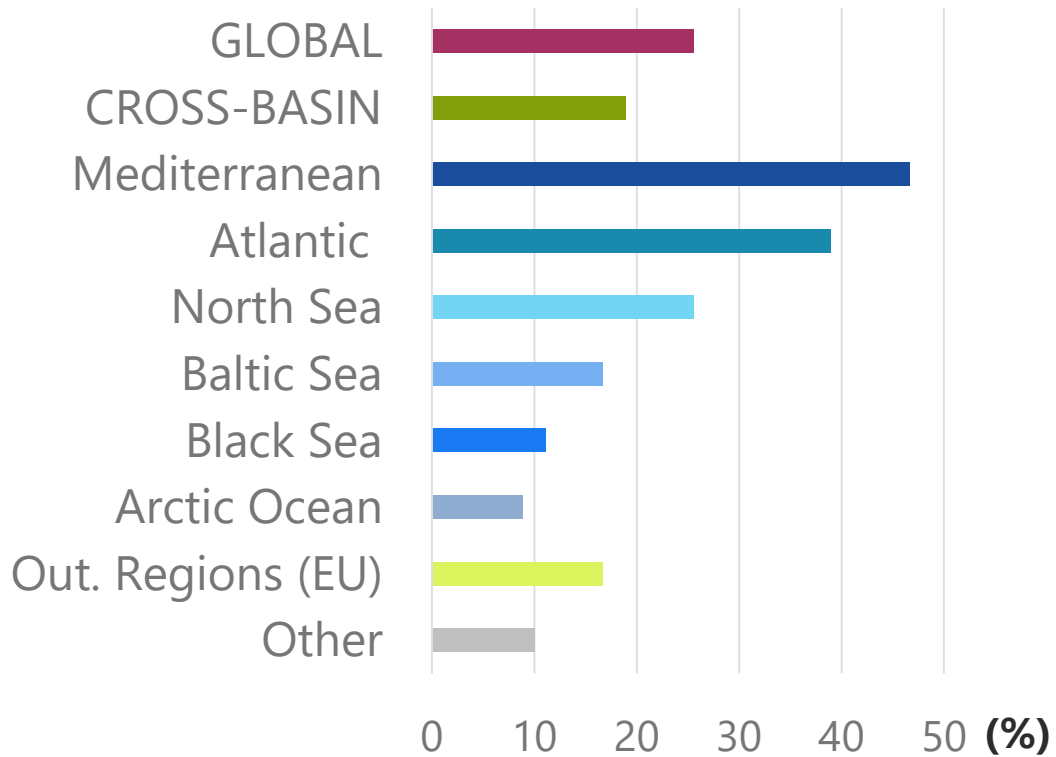

- Most members have expertise on the **marine environment**: marine conservation (>70%) and biology (>60%).
- More than half (>50%) of the community has expertise on **policy-making**.
- Almost half of the community has expertise on **stakeholders' engagement**: education, governance.
- A smaller share has expertise in **Blue Economy**: innovation, maritime sectors.

Geographical coverage

- Most community members have experiences in several sea-basins

Sea basins experiences
of the EU-BPC members (%)

Become a member & access MIP Services

- **Disseminate your most recent results** and ideas (website, newsletter, workshops, solutions library)
- **Stay up to date on marine protection actions:** projects, fundings, events, etc.
- **Ask for technical & scientific assistance** via our Helpdesk.
