

Horizon 2020 Policy Support Facility

MLE-INCO TOPIC 2 Tools

1st Country Visit
Paris 3-4 June

Learning from successful and unsuccessful STI Agreements

- Scoping meeting: focus on STI Agreements as tool that is commonly used
- Learn from STI Agreements that work well and those not working well from all MLE countries
- Not a fixed definition of
 - STI Agreement so that all countries can include their examples
 - Success and lack of success

Proposed approach

- Challenge Paper uses input from concrete cases in MLE countries
- Two templates are prepared for successful and non-successful examples
- Return to me by 15 August
- Please provide contact details for possible further questions

Template structure Success Case

- Characteristics
 - Type, topic, objective, scope, beneficiaries, implementation & budget, arrangements for partner country(ies), implementing bodies, position in toolbox
- Results, (non-)success, impact
 - Description what success would mean, use by community, monitoring, evaluation, wider impacts, critical success factors, flaws & risks, lessons for other countries
- Future
 - Rationale in 3-5 years, Model for other STI Agreements?

Template Non Success Case

- Characteristics
 - Type, topic, objective, scope, beneficiaries, implementation & budget, arrangements for partner country(ies), implementing bodies, position in toolbox
- Results, (non-)success, impact
 - Description what success would mean, use by community, monitoring, evaluation, any impact at all, critical non-success factors, fixable? lessons for other countries
- Future
 - Rationale in 3-5 years, will the agreement be modified, terminated?

Please send templates to

- patries@boekholt-ipm.eu
- Please give 1-2 contacts where I can ask, if necessary, more info
- If STI Agreement is available on website please add URL
