

Moldova's case on developing International Cooperation in R&D

MLE on National Strategies and Roadmaps for International
Cooperation in R&D under the H2020 PSF,
Stockholm, 12-13 November 2019

Diplomatic Missions of Moldova

The Code of Science and Innovation, 2004

- The Academy of Science of Moldova is the main policy-making institution and fulfills the role of a Ministry of Science.
- The President of ASM is a member of the government ex officio. It is an elected eminent national scientist who enjoys full independence from political views.
- ASM works as the research policy-making body, it manages most of the public R&I funds, and is the main research performing institution in the country.

2014: EU-Moldova Association Agreement

- In the field of R&I Moldova became Associated to the EU's Horizon 2020 (H2020) programme.
- Participation of Moldova in EU activities on the better coordination of national R&I programs, including ERA-NETs and JPIs (e.g. WaterWorks)

ASM agreements

- 41 agreements with international research and research-funding entities, the majority of which located in the European Research Area.
- Main idea – **adapting the national scientific environment to the European (and global) one(s).**

Reframing national strategies

- The overarching National Development Strategy 2020 (2012), covering all policy areas and not just R&I
- The SME Strategy 2012-2020 (2012)
- The Innovation Strategy (2013)
- The National R&D Strategy (2014) - reflects the consensus among R&I stakeholders around five main objectives: **capacity building, focused priorities, stronger links within the system, internationalization, and governance.**
- The thematic priorities for R&I are adopted by the Parliament (2013)
